

UC-100

Urethane Modified Acrylic Coating Spray

Packaging Aerosol 420ml/can, 20cans/Box

Unit :

Features

- Clear, flexible film
- Excellent adhesion
- Ideal for sealing electrical and electrical and electronic parts
- Protect against rust, moisture, corrosion, dirt and alkali
- Water-proof
- All dries in minutes
- Meets performance requirements

Uses

- Protective coating agent for insulation, vibration-resistance and moisture-proofing of PCB, Coil, Motors, Generators, Solenoids, Connectors, Control Box, Transformers etc.
- Protective coating for moisture-proofing and insulation of washing machine, communication equipment, OA equipment and vending machine
- Coating agent for protection and sealing of Toys, Industrial Arts, Woods etc.
- Moisture proofing, water repelling and maintenance of generator, transformer and motor wiring
- Vibration proofing and moisture proofing of electric and electronic equipment and parts.
- Adhesion of metal, glass and plastics
